

ONLINE TRAINING

Configuration Engineers

ONLINE TRAINING COURSE

Course Objectives

This course covers all the tasks necessary to configure an Exaquantum System after Installation. The course follows the Exaquantum/PIMS User Manual. The aim of the course is to demonstrate the post installation, configuration of an Exaquantum System, performing all necessary steps to get the system up and running.

Prerequisite Knowledge

This course requires the attendee to have a working knowledge of the Microsoft Windows Desktop environment. It is expected that users on this course would have either taken the Exaquantum Systems Administrators Course (NTPP906) or the Exaquantum Installation Engineers Course (NTPP907).

Who Should Attend

This course is designed for anyone requiring the skills to perform basic configuration of an Exaquantum System.

Program

- Introduction to Exaquantum Configuration
- System-wide Configuration
- Template Configuration
- Tag Generation
- Usage of the Tag Editor

Duration: 18 Hours
