

YOKOGAWA

ONLINE TRAINING

BatchWeb Users

ONLINE TRAINING COURSE

Course Objectives

This course is designed to introduce the user to all the features of the Exaquantum/Batch BatchWeb user interface. It covers user specific customization that an unprivileged user can make, including the various filter techniques as well as the functionality of all the major screens. Trend Template configuration and the scheduling of reports from BatchWeb are also included. Exaquantum/Batch User security is discussed where appropriate. A general overview of the interface and features is presented prior to the detailed investigation of the screen.

Prerequisite Knowledge

No prerequisite knowledge is required in order to attend this course.

Who Should Attend

As this course is a prerequisite for all other Exaquantum/Batch courses, it should be taken by all users.

Program

- General product and course overview
- Exaquantum/Batch BatchWeb Overview
- Example user scenarios
- BatchWeb reports
- Summary

Duration: 12 Hours
