

Can I Use Exaopc_RD with CAMS for HIS Compliant Exaopc?

No. Currently, Exaopc-RD does not support CAMS for HIS Compliant OPC Servers.

Therefore, a choice has to be made between using Exaopc-RD and not having CAMS for HIS A&E messages or having CAMS for HIS messages on a single Exaopc Station.

An alternative may be to use Exaquantum/ORM which will support Alarms and Events from R3.10 onwards.
