

What kind of DCS, PLC and other systems can be connected with Exaquantum/Batch?

Automatic Batch Data Collection (ABDC) is only supported with CENTUM CS and CENTUM VP BATCH.

Exaopc Batch is the only support OPC Batch Server type.

For latest information regarding the supported versions see the compatibility matrix
<http://www.ymx.yokogawa.com/support/eu-supcomp.htm>.

Custom Batch Data Collection (CBDC) will support any system that has an OPC Data Access 2.05 server.

Exaquantum /Batch Releases Affected
