"Development of Exaquantum software as a member of the Server Team"

Introducing **Matthew Bowden**

Job Title: Software Engineer
Yokogawa Marex Office - Cowes

When did you join Yokogawa Marex?
May, 2018

What are you responsible for?
Development of Exaquantum software as a member of the Server Team

Describe yourself in three words:
Affable. Humorous. Creative.

Fun fact about you?
I'm not a great fan of football, and the only match I have ever attended I had to be marched to under police escort.

What's your favourite food and drink?
Chinese food, and a real ale man

If you could have a super power, what would it be and why?
Teleportation. As a non-driver and reluctant walker, it would solve so many problems.

What was the best concert you ever attended?
Cirque du Soleil's "Kurios" in Montréal.

First thing you bought with your own money?
I blew my first pay check on a hi-fi setup.

What was your favourite band?
Genesis every time!
